REFERENCES INDICATE MONTH OF ISSUE AND QUESTION NUMBER

JAN 23 1987

**LIBRARY**

## AIDS

- Have there been any job-related cases involving worker fear of exposure to AIDS victims? ..... 3-3005
- Has the government issued any guidelines regarding AIDS in the workplace? ..... 4-3017
- Is it a good idea for our company to develop a personnel policy for dealing with employees stricken with AIDS? ..... 5-3032
- Would we be justified in firing employees who refuse to work with a fellow employee afflicted with AIDS? ..... 5-3033
- When we decided to permit an AIDS-infected employee to continue working, a group of employees threatened to file a complaint with OSHA. Do they have a valid gripe? ..... 8-3088

## BATEMENT

- What can happen to an employer who ignores the inspector's determination that a serious hazard should be corrected immediately? ..... 3-3003
- Representatives of our company and the union worked out a settlement with OSHA, but several employees objected to the settlement. Can they do so? ..... 6-3060
- We weren't able to correct all the violations within the time limit fixed by OSHA, so now they want to hit us with a whopping additional penalty for "failure to abate." Is that fair? ..... 9-3098
- One of our clerks neglected to request an extension of time to correct certain violations. Now, we've been hit with heavy additional penalties for "failure to abate." Is that fair? ..... 11-3129
- As the inspector pointed out apparent violations during his walkaround, we immediately assigned employees to correct them. Good idea? ..... 12-3145

## PEALS

- When a company declares bankruptcy while the appeal of an OSHA citation is pending, does that put a freeze on the proceeding? ..... 1-2983
- Isn't it foolish for companies and the government to go through the time and expense of a federal court hearing over relatively minor safety violations and penalties? ..... 8-3078
- When an Administrative Judge reduces the penalty proposed by OSHA, is that the final word? ..... 8-3083
- We can't reach a settlement with OSHA during an informal conference, shouldn't we be informed about our right of appeal? ..... 11-3127
- We're inspected while our appeal of an Administrative Judge's decision is pending before the Review Commission, can we be cited for the same violations? ..... 12-3147

## CITATION, VIOLATIONS & PENALTIES

- Can OSHA hit us with a heavy penalty to "set an example" for other employers in the area? ..... 1-2980
- We were inspected several times by OSHA over the past five years, and now they cite us for a machine violation even though it was always that way. Is that fair? ..... 3-3002
- Even though the insurance company inspector gave us a clean bill of health, OSHA cited us. Shouldn't we get a break on the penalty, since we relied on the insurance company? ..... 3-3007
- We were cited for a serious violation even though we've never had an injury as a result of the condition OSHA complains about. Is that fair? ..... 4-3025
- We were charged with a serious violation, even though the likelihood of an accident was slight. Is that proper? ..... 6-3058
- How important are previous similar violations? ..... 7-3075
- Do we understand that if the penalties levied by OSHA for safety violations aren't paid, we can be hit with additional penalties and interest. True? ..... 8-3084
- Wouldn't it be better if employers used the money for upgrading workplace safety rather than pay penalties to the government for safety violations? ..... 9-3096

## OMPLAINTS

- Can an employee protected against retaliation for voicing complaints about lack of safety training? ..... 2-2998
- How can we prove that the disciplinary action we took against an employee was not for filing a safety complaint, but because of his consistently poor work? ..... 3-3014

- Is an employee who, acting on his own, files a complaint about unsafe working conditions, protected under the National Labor Relations Act? ..... 3-3015
- Can an employee collect damages for "wrongful termination" if she's fired for filing a safety complaint with the state? ..... 10-3116
- If OSHA rejects a worker's claim that he was fired for filing a safety complaint, can he still sue his employer for "wrongful discharge"? ..... 12-3146

## CONSTRUCTION—CONTRACTORS & SUBCONTRACTORS

- If a contractor promises the project engineer that he will institute certain safety measures, what can happen if he reneges in doing so? ..... 5-3039
- What are some of the most common safety violations found at construction sites? ..... 10-3119

## CRANES—HEAVY EQUIPMENT

- What can happen if the operator's daily Crane Inspection Report is just filed away unread? ..... 1-2978
- We rented a crane and operator to lift some heavy equipment for us. As a result of the operator's carelessness, one of our employees was injured. Can we be held responsible? ..... 1-2985
- OSHA says that, when the rotating superstructure of a crane is barricaded, that means all employees must keep outside of the barricaded area. Does that include the crane's oiler? ..... 3-3013
- We were cited for permitting a crane to carry a load over employees and we claim the angle made it impossible for the inspector to see its exact location. Who's right? ..... 7-3076
- During the entire trip in reverse must the backup alarm on our loader be sounded? ..... 8-3089
- We have an excavator with a rotating superstructure. The inspector says we must barricade accessible areas within the swing radius of its rear. True? ..... 9-3104
- We received the manufacturer's approval to modify our crane. What should we do after the modifications are completed? ..... 10-3113
- The regulations [1910.179(n)(3)(xi)] state that a warning signal should be sounded when a crane load "approaches near personnel." How close is that? ..... 12-3140
- Why must our crane operators wear hard hats when the only overhead dangers are from falling loads weighing at least 500 pounds? ..... 12-3150

## CRIMINAL PROSECUTION

- One of the supervisors got into an argument with the OSHA inspector, lost his temper, and hit the man. What can happen to him? ..... 1-2976
- Has anyone ever been prosecuted for lying to OSHA? ..... 4-3019
- Since most workplace fatalities do not trigger criminal prosecution, what are the factors that impel government officials to seek an indictment? ..... 8-3082

## DEFECTIVE TOOLS & EQUIPMENT

- Are we entitled to rely on our supplier to furnish us with the proper equipment? ..... 4-3024
- Are we responsible for the condition of the tools in an employee's home workshop, if he uses the shop for company work? ..... 6-3052

## DISCIPLINE

- We leave it up to our foremen whether or not to report employees for safety infractions, and what, if any, discipline should be imposed. Good idea? ..... 1-2971
- If a supervisor accuses an employee of reporting for work in an intoxicated condition, must we honor the worker's request for a blood test? ..... 6-3049
- Claiming that we don't enforce certain safety rules, the inspector pointed out that we've never disciplined anybody for violating them. What kind of justification is that? ..... 6-3055
- Is discharge warranted in the case of an employee whose "simple mistake" almost caused a serious accident? ..... 7-3067
- Can we demote an employee because of his poor accident record? ..... 8-3085
- Instead of staying home recuperating, we discovered that one of our employees on sick leave was moonlighting for another outfit! What can we do about it? ..... 8-3091

**DRUG ABUSE**

- Are there any figures on the actual cost to industry of employee drug abuse? ..... 4-3021
- Which is the better approach in countering employee drug abuse: an outright ban on drugs, or forbidding drug use that results in physical or mental impairment? ..... 4-3022
- Are the unions doing anything to help curb worker drug abuse? ..... 4-3023
- How serious is the effect of drug abuse on worker safety and health? ..... 5-3037
- What steps can be taken to counter employee drug abuse? ..... 5-3038

**ELECTRICAL**

- One of our rooms, which contains electric-powered tools and equipment, is hosed down daily for sanitary purposes. Are there any special precautions we must take? ..... 4-3027
- If the general contractor supplies electric power at the worksite for all the subs, who is responsible for providing ground fault circuit interrupters or an assured grounding program? ..... 6-3059

**EMPLOYER RESPONSIBILITY**

- If we "loan" some of our employees to another contractor, who is responsible for them as far as OSHA is concerned? ..... 4-3026
- An employee loaned to us by another company claims he's been trained and qualified to operate a forklift. Should we check him out to make sure? ..... 7-3064
- Are we responsible for our employees' safety on a jobsite during their lunch break? ..... 7-3065
- Without our knowledge or consent, an employee brought a fan to work the day a safety inspector showed up and we were cited for unguarded fan blades! Is that fair? ..... 7-3068
- Does the fact that we had an accident because an employee disobeyed one of our safety rules create a presumption that our safety practices are inadequate? ..... 12-3148

**ENFORCEMENT ACTIVITIES**

- We run a small business operation and our only employees are family members. Are we exempt from OSHA regulations? ..... 3-3010
- Every once in a while I read about OSHA levying a whopping big penalty against a safety violator. Do they actually collect all that money? ..... 6-3046
- How effective has OSHA been in collecting penalties levied for safety violations? ..... 7-3071

**EXCAVATIONS, TRENCHES**

- We claim there are no special safety requirements covering trenches dug in hard or compact soil. True? ..... 2-2994
- We have a dirt incline at the end of the trench that employees use as means of exit. Good enough? ..... 2-2995
- Contrary to company rules, one of our workers jumped into a freshly dug, unshored trench to relieve himself and was spotted by an inspector who then cited us. Is that fair? ..... 7-3072
- How do you measure the depth of a trench: from the bottom, or from the level at which employees are standing? ..... 11-3131
- How could the inspector prove our trench was more than five feet deep if he didn't use any measuring device? ..... 12-3144

**FIRST AID—MEDICAL**

- As maintenance contractors, our employees sometimes do repair work on steel mill coke ovens. Must we provide a medical surveillance program for them? ..... 4-3030
- Since there's a paramedic squad located near our plant, are we excused from having first-aid trained personnel on premises? ..... 9-3099
- Job applicants at our company are required to take a physical examination, which includes a number of X-rays. How valuable are these X-rays? ..... 10-3117

**GUARDING—MACHINERY & EQUIPMENT**

- We were cited for using an unguarded hand-held powered chop saw at our construction site, even though we pointed out the tool wasn't designed to accommodate a guard. Who's right? ..... 1-2982
- Can we be cited for permitting an employee to stick his hand into a machine to clear a jam-up, even though the machine has an automatic power cut-off whenever it jams? ..... 7-3070
- We've been using an unguarded power saw for years and no one's been injured! Doesn't that prove guards are unnecessary? ..... 9-3105

**GUARDRAILS**

- We were cited for permitting our employees to work near an open-sided floor lacking guardrails even though we neither created the hazard nor install guardrails. Who's right? ..... 3-3011

- When our employees were installing angle irons in an elevator shaft, we told them to lie flat on the floor to minimize the risk of falling down the shaft. Good enough? ..... 5-3044
- Can we be excused from installing fall protection for employees working briefly near the edge of a building if it would take longer to install the guardrails? ..... 5-3044
- Must we install guardrails on our scaffold, even though employees aren't working on it but merely using it as a means of gaining access to the roof? ..... 6-3051
- Employees have to walk on top of the cargo on flat-bed trucks to secure it, so OSHA says the cargo is a platform and we must provide guardrails. Isn't that ridiculous? ..... 7-3068

**HAZARD COMMUNICATIONS**

- What kind of violations have been logged so far under the hazard communications standard? ..... 9-3099
- How good a job are the Material Safety Data Sheets doing in hazard communication? ..... 10-3100
- We received a hazardous chemical from the manufacturer but no Material Safety Data Sheet for it. Can we nevertheless use the chemical, since we need it right away? ..... 12-3133
- Are the dealers from whom we purchase scrap metal required to furnish us with Material Safety Data Sheets if the metal contains hazardous chemicals? ..... 12-3133

**HEALTH HAZARDS**

- Do barbers and beauticians face special health problems because of the products they use in their work? ..... 2-2999
- We were cited for failing to dispose of insulation containing asbestos in sealed, impermeable containers, even though the inspector didn't test for airborne asbestos. Isn't that necessary? ..... 3-3003
- Does the regulation covering asbestos apply to every situation involving employee exposure? ..... 4-3022
- We've noticed that a number of our maintenance workers who do a lot of paintings frequently experience headaches and dizziness. Is this cause for alarm? ..... 4-3022
- A number of our employees have developed allergic reactions to the chemicals we use in our plastics plant. Is this commonplace, or unusual? ..... 5-3039
- Is there any clear-cut evidence identifying specific workplace agents as reproductive hazards? ..... 6-3055
- How are the unions reacting to company bans on workplace smoking? ..... 8-3081
- Must we require the employees at our health care facility to wear protective gloves when they clean and change patients? ..... 8-3090
- How long should the skin be rinsed with water in order to flush away harmful chemicals? ..... 9-3092
- Can we be cited for a violation of the mineral dusts air contaminants regulation for excessive grain dust at our grain elevators? ..... 11-3132

**INSPECTIONS**

- An employee injured in an accident has asked OSHA for the names and addresses of all the witnesses its investigators interviewed. Is he entitled to this? ..... 1-2979
- In order to charge us with a violation, the inspector has to actually see employee exposure to the hazard, right? ..... 6-3048
- We've been inspected numerous times by our insurance company and the government, and always received a clean bill of health. Can we rely on them? ..... 6-3053
- In testing our welders' exposure to airborne contaminants, is it proper for the inspector to place sampling filters on the outside of their welding hoods? ..... 7-3066
- After our first inspection, we followed the inspector's advice on correcting a violation, but at a subsequent inspection the second inspector said it was wrong! How can you win? ..... 8-3077
- While the inspector is at a construction site investigating an accident involving one contractor, can he cite other contractors for violations he happens to notice? ..... 9-3101
- We're willing to permit an inspection of our plant but we don't want any pictures taken. Will our request be honored? ..... 10-3107
- Are we justified in claiming that the inspector's readings for airborne contaminants were not accurate since the high workplace temperature affected the testing device? ..... 11-3124
- While waiting for a company representative and before starting his walkaround inspection, the inspector took a picture of an apparent hazard. Can he use this photo against us? ..... 11-3133
- During his walkaround, the inspector quizzed our supervisors on their knowledge of certain safety rules. Why is that? ..... 12-3139
- We were unaware that we were violating OSHA regulations since state inspectors gave us a clean bill of health. Is that a good defense? ..... 12-3149

## SE

Can we permit the union's industrial hygienist access to our plant to conduct noise level tests? ..... 2-3000

Are we required to provide engineering controls to reduce workplace noise, even though they cannot bring noise levels down to permissible limits? ..... 10-3118

Are we set up a voluntary program to test our employees' hearing, do we have to pay them for the time spent taking the test? ..... 12-3138

## VENTIVE SAFETY

Do many companies instituted formal policies restricting smoking in the workplace? ..... 2-2987

Would we be justified in placing an employee suffering from Parkinson's Disease on medical leave of absence? ..... 2-2988

Would we be justified in refusing to recall an employee whom our doctor says should be placed on restricted duty because of his obesity? ..... 2-2999

Would an employee's off-duty driving record have any bearing on his right to drive a company truck? ..... 9-3100

Does OSHA inspector says we should shut off the power, use a die blocking procedure on our presses, and stop the flywheel before employees work within the dies. True? ..... 10-3120

## CORDS, RECORDKEEPING &amp; POSTING

Has HA charged us with failing to maintain a Log and Summary of Employee Injuries and Illnesses (Form 200) but we have the information in our workers' compensation records. Good enough? ..... 1-2977

On the advice of counsel, we refused to turn over certain records to OSHA. His advice proved wrong. Will they now "lower the boom" on us? ..... 5-3045

## SPIRATORS

Does the ventilation system we installed doesn't seem to do the job, can we rely on respirators to reduce employee exposure to airborne contaminants? ..... 2-2992

Is our fault if an employee selects the wrong respirator and is overcome while working in a contaminated atmosphere? ..... 2-2993

Instead of purging the shaft of air contaminants, can we permit our workers to wear it while wearing respirators? ..... 12-3142

## BOTS

Who is responsible for installing protective devices on industrial robots: the manufacturer or the purchaser? ..... 11-3121

How good a safety record do industrial robots have? ..... 11-3122

## ETY EQUIPMENT

When we tried to get our employees to wear safety belts, they pointed out that workers from other companies on the jobsite don't wear them, so why should they. How can we handle this? ..... 1-2973

Can we encourage our employees to wear safety shoes, could that be used against us as proof that safety shoes are necessary? ..... 1-2984

Does one of our employees swears by his "lucky" safety belt, saying it saved his life once and he refuses to give it up. Should we let him continue using it? ..... 3-3009

Does one of our storerooms contains chemicals which could, upon contact, cause eye or skin irritation. Must we install quick drenching facilities in that area? ..... 5-3036

Do workers directing traffic on a paving job in a shopping center weren't wearing reflectorized vests. We say it's only necessary on or near a public highway. Who's right? ..... 6-3047

Do we require our employees to wear protective sleeves since the work they perform subjects them to the possibility of minor burns on their forearms? ..... 6-3050

Is the inspector correct in saying that deluge showers and eye flushes are the only proper methods for washing off harmful liquids from the clothing, skin and eyes? ..... 8-3087

Is it safe to use asbestos gloves are still being used to protect workers' hands from heat, flames, and sparks. Is that safe? ..... 10-3114

## ETY RULES, INSTRUCTIONS &amp; PROGRAMS

Do our employees receive on-the-job training with emphasis on safety, and our supervisors attend safety seminars. Good enough? ..... 1-2972

Do workers resent it whenever an in-plant safety team shows up to conduct a routine inspection. What can we say to them to change their attitude? ..... 2-2996

Would we be justified in disciplining an immigrant worker who caused an accident because he failed to understand instructions? ..... 6-3057

Do we have a work rule requiring our longshoremen to wear hard hats whenever there are overhead hazards. Good enough? ..... 7-3069

Do the regulations prohibit using compressed air for cleaning unless the pressure is less than 30 p.s.i. Does that also apply to drying? ..... 8-3086

When we issued a new safety rule, we communicated it to our supervisors, with instructions to pass it on to the employees. Good enough? ..... 10-3110

Our insurance company has warned us of shortcomings in our employee training for dealing with emergencies. How important is that? ..... 10-3111

How formal must safety instructions be for employees working around acid tanks? ..... 11-3123

How specific must we be in conveying and enforcing safety rules regarding workplace hazards? ..... 11-3126

Should our beefed-up safety training for new employees be extended to include our old-timers? ..... 12-3137

## SCAFFOLDS

Did the inspector told us that we need overhead protection for our employees working from a scaffold, and that this protection should be a canopy built onto their scaffold. True? ..... 2-2990

Is it necessary to lock the casters on our manually propelled mobile scaffold whenever an employee is working on it? ..... 5-3044

In checking the wire rope on our slings, I noticed the inspector was counting the number of broken wires on the rope. Why? ..... 6-3056

Can we permit employees to work on a scaffold from which the guardrails were temporarily removed in order to erect the next scaffold tier? ..... 7-3074

Were we cited for permitting employees on a scaffold lacking guardrails and toeboards while they were erecting the scaffold at the time of the inspection. Is that fair? ..... 9-3106

To keep the scaffold legs from sinking in the mud, we placed several bricks under each leg. Good enough? ..... 10-3115

Do our scaffolds need guardrails if the employees will be working on them from a kneeling position? ..... 11-3130

## SUPERVISORS

Can we be cited because there was no supervisor in the work area immediately preceding an accident caused by an employee's violation of safety rules? ..... 1-2981

I know a foreman is usually considered part of management but what about a "leadman" or "crew leader"? ..... 4-3018

Are we responsible for the actions of our supervisors, even when they're performing general laborer work? ..... 5-3031

How do workers generally rate their supervisors on awareness of and concern for safety? ..... 11-3120

What criteria are used by the safety inspector in determining who is a foreman? ..... 11-3125

## UNIONS

Can an employee who claims he was discriminated against under the Job Safety Act has 30 days to file a complaint with OSHA. Is this period extended if he also files a union grievance? ..... 1-2975

Under the union contract, the company can reduce work crews but, when we attempted it, the union claimed the reductions would create unsafe working conditions. Is this a valid objection? ..... 9-3097

## UNSAFE WORK CONDITIONS

Does our purchasing department sometimes vetoes our request for top quality equipment, saying the price is too high, even though the cheaper equipment frequently breaks down. Is this a common problem? ..... 2-2989

Is an atmosphere heavy with grain dust presumed to be explosive? ..... 3-3006

Were we cited for leaving a loaded explosive-powered magazine-fed stud gun lying around, even though we claimed it was unloaded, since the firing chamber was empty. Who's right? ..... 5-3034

A number of our lab workers have been complaining about various aches and pains, but we haven't been able to figure out why. What could be troubling them? ..... 5-3041

What can happen if we fail to heed the recommendations made by the safety consultant we hired? ..... 7-3063

Does the contract we signed for a construction job requires us to perform certain tasks in a way contrary to the safety regulations. Which should we follow? ..... 8-3079

Can employees call a work stoppage when ordered to perform an unusually unsafe task? ..... 9-3095

What risks do we take in failing to heed the advice of the safety inspector? ..... 9-3102

Do our warehouse workers seem to have a higher injury rate than the rest of our employees. Isn't this unusual? ..... 12-3143

## VDT OPERATIONS

The biggest fear our computer operators have is that exposure to VDTs will give them cataracts. Any justification for this fear? ..... 3-3001

Even though we've furnished all our VDT operators with the latest "ergonomically correct" equipment, many of them still complain. What's the problem now? ..... 5-3040

There seem to be conflicting theories about a possible link between pregnancy problems and video display terminal use. Why isn't a major study undertaken to answer the question? ..... 7-3061

## WARRANTS—SUBPOENAS

As part of its investigation of a workplace accident, OSHA issued a subpoena directing us to turn over certain machine parts for testing purposes. Are they entitled to this? ..... 4-3029

Can we, as subcontractors, refuse to permit the OSHA inspector access to our work area without a warrant, even though the general contractor gave his consent to the inspection? ..... 10-3112

## WORKERS' COMP—LITIGATION

Can corporate officers be sued personally for firing an employee who filed safety complaints against the company? ..... 1-2974

If a person collecting workers' compensation refuses a corrective operation recommended by the insurance company, can his benefits be reduced or canceled? ..... 2-2997

How should we handle an employee who intentionally aggravates a work-related injury to keep collecting workers' comp payments? ..... 3-3001

One of our employees, who works out in the woods, developed an infection from an insect bite and was laid up for several months. Is he entitled to workers' compensation benefits? ..... 3-3001

I understand that many employees who have developed work-related diseases are suing their employers. What are their chances of success? ..... 4-3001

In a lawsuit arising out of an accident, can OSHA be compelled to reveal the identities of the employees it interviewed? ..... 7-3061

Would we be justified in refusing to recall a worker who filed for workers' compensation benefits, claiming "complete loss of hearing"? ..... 8-3001

When one of our employees sustained a job-related back injury, we learned it the first time that she had undergone two previous back operations. Is she entitled to workers' compensation? ..... 9-3001

Can workers sue their employer for intentionally withholding information about harmful effects of materials to which they were exposed? ..... 10-3001

Can an employee continue collecting workers' compensation benefits for a job-related injury if she refuses to undergo further medical diagnostic tests? ..... 11-3001

Can OSHA be sued for failing to uncover hazards during its inspection that later caused a worker's death? ..... 11-3001

One of our employees, who was accidentally exposed to harmful chemicals, has filed a claim for compensation benefits. Doesn't he have to show some evidence of injury or illness? ..... 12-3001

# Save Money On Medical Expenses, Absences, And Lagging Production Caused By Workplace Injuries!

Improving workplace safety pays. You may be spending too much on medical payouts and workers' compensation—not to mention such hidden profit-leaks as lost time, lost efficiency, replacement training expenses, damage to tools and equipment, and, above all, failure to fill orders.

Your foremen and supervisors know what your employees should do—and not do—to work safely. Organizing and communicating this knowledge is something else, however. That's why the Business Research Publications editors have published SAFETY TALKS, a way you can help your foremen plan and execute a safety program that works for your company. The TALKS may be reproduced for in-plant distribution.

**SAFETY TALKS: A COMPLETE PROGRAM OF FIVE-MINUTE TALKS TO PROMOTE SAFETY** is specifically designed to help your front-line supervisors teach your employees how to do their jobs safely. The manual is divided into 24 major topics with 291 separate talks.

To order the Safety Talks Manual, call TOLL FREE 1-800-622-7237.
